Notes to the statistics:

- (i) In cases where figures have not been supplied an estimated figure has been included in brackets.
- (ii) An asterisk indicates that this is the figure supplied by the church even though it is inconsistent with their reported net gain or loss.
- (iii) The overall net loss is calculated from the total membership figures. It is different from the figure arrived at from the breakdown of additions and deductions because of inconsistencies in the figures received from the churches.
